## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 2-26 are allowed. The following is an examiner's statement of reasons for allowance: the prior art fails to teach or fairly teach the claimed invention.
2. Specifically, no teaching or fair suggestion has been found of the limitation "a first side-beam having a first slider mounted thereon, a first motor that moves the first slider along the first side beam; a cross-beam mounted near a first end thereof to said first slider and having a second slider mounted thereon, said cross-beam and said first slider being mounted together so as to form a body that is substantially rigid in translation in said plane and in rotation about an axis normal to said plane, and said second slider having an object holder to hold the at least one of said patterning structure and said substrate table; and a thrust bearing pivotally mounted to said first slider, said thrust bearing transmitting a force in said plane and substantially perpendicular to said first side beam between said cross- beam and said first side beam" as in claims 2 and 24.
3. Likewise, no teaching or fair suggestion has been found of the limitation " first and second side-beams having respective first and second

sliders mounted thereon; first and second motors that move said first and second sliders longitudinally to their respective side beams; a cross-beam mounted near first and second ends thereof to said first and second sliders respectively and having a third slider mounted thereon, said cross-beam and said first and second sliders being mounted together so as to form a body that is substantially rigid in translation in said plane and in rotation about an axis normal to said plane, and said third slider having an object holder to hold the at least one of said patterning structure and said substrate table; and a thrust bearing pivotally mounted to said first slider, said thrust bearing comprising a bearing assembly which acts against a bearing wall of said first side-beam" as in claim 20.

4. All other claims are allowed by virtue of the dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
